PROFESSIONAL SUMMARY

Dedicated, Hardworking and Enthusiastic Person. To secure a challenging position in a reputable organization which will bring best in me. Secure a responsible carrier opportunity to fully utilize my technical expertise, which significantly contribute to success of the company in a long run.

PROFESSIONAL EXPERIENCE

Software Developer

01/2025 – present | Thane

Seamless Automations Pvt Ltd

Seamie Software Installer – Windows Endpoint Deployment Platform

- Built a Python-based Windows endpoint agent to collect software inventory/health telemetry and execute silent installations for .exe, .msi, .msix, .ps1, and .bat packages.
- Developed a Flask + Waitress backend with MySQL for endpoint onboarding, runtime state management, and full installation lifecycle tracking with audit logs.
- Implemented admin APIs and dashboard tools for software catalog management, installer uploads, bulk processing, and automatic silent-install command detection.
- Added PDF reporting and email alerts (ReportLab, Outlook COM) and packaged both agent and server with PyInstaller for offline Windows deployment.

Quick Win (Comprehensive Fund Data Automation)

- Contributed to improving system scalability and performance using Python.
- Built and optimized Python-based web crawlers for efficient data extraction from multiple sources.
- Debugged systems and ensured reliability, maintaining robust data pipelines and integrity
- Developed expertise in MySQL, optimizing data storage and retrieval operations.

Python Developer Intern

05/2024 – 12/2024 | Thane

Pinnacle Technologies Pvt Ltd

Full Stack Web Development

- Developed and deployed full-stack platforms for non-profit organizations using Python, Django, HTML, CSS, and JavaScript on VPS servers.
- Enhanced website performance, scalability, and database optimization.
- Integrated secure, user-focused features and boosted user engagement.
- Created detailed documentation for ongoing maintenance and future development.
